### AANR-WC is hitting the Inter-Webs!

*By Greg Hastings*

AANR Western Canada is working to communicate with our members electronically. By going electronic, the *Canadian Nudist News* (this newsletter) can be produced more expeditiously, at a lower cost, and with less effort by our volunteers. Just addressing and preparing postage is a ton of work that is rarely appreciated.

There may also be special events and announcements that may arise that we want to get out quickly in between CNN publishing cycles. We promise we will not spam you every day or even once a week.

Beginning December 2020, AANR-WC will be leveraging the AANR mailing list and preferences for electronic communication already obtained by AANR. **If you are currently receiving *The Bulletin* published by AANR electronically, you will also receive the next issue of CNN electronically.** If you prefer the paper version delivered by Canada Post, and you are getting *The Bulletin* by mail, *continued..*
